

# LENOVO™ PORTABLE ALUMINUM LAPTOP STAND

## PAIN-FREE PRODUCTIVITY, ALL DAY.

We all know our bodies weren't designed to be stationary in front of computers all day. The Lenovo Portable Aluminum Laptop Stand is an accessory that reduces aches and pains by positioning your laptop at an ergonomic, 18° angle. The sturdy aluminum and silicone frame folds flat when not in use for easy storage, and features ventilation holes that increase airflow and prevent your laptop from overheating.

## WHY YOU NEED THE LENOVO PORTABLE ALUMINUM LAPTOP STAND

### Effortlessly ergonomic

Supporting laptops up to 15.6", the stand provides a perfect 18° tilt that allows users to maintain a proper spine and neck position when viewing, as well as an ergonomic typing position for hours of comfortable use.

### Extra air, extra cooling

The premium hollow-carved design with an additional 3.5" of air space makes it possible for even high-performance gaming laptops to stay cool for long sessions without frustrating overheating and throttling issues.

### Extremely stable, easily transportable

Silicone footing stops any slipping and sliding that could lead to dropping or damaging your laptop. Space-saving, fold-flat construction is quick to set up and easy to move from A-to-B.
