Lenovo ThinkPad X13 *i*

Built on Intel vPro®, an Intel® Evo™ Design, with 13th Gen Intel® Core™ processors and Intel® Iris® X^e graphics, the redesigned Lenovo ThinkPad X13 *i* Gen 4 delivers an enhanced user experience for optimal hybrid work and mobility. Lighter and thinner with anywhere productivity thanks to 4G LTE and 6E Wi-Fi[1], as well as the all-day battery life, this premium Lenovo ThinkPad clamshell design is a must-have for the modern workforce.

Enhance collaborative ideation with the new split 5MP RGB+IR camera for improved visual quality and Dolby® Suite for enriched audio, while always staying secure with the webcam privacy shutter and Human Presence Detection. Plus, this Lenovo ThinkPad is engineered with purposeful sustainability in mind, from the low-temperature soldering used in manufacturing and PCC recycled product materials to our low-power display and plastic-free packaging.

Lenovo ThinkPad X13 *i*

ULTRA-PORTABLE PRODUCTIVITY

Starting at 15.95 mm and 1.14 kg (2.51 lbs), this Lenovo ThinkPad is built for high-performing productivity from everywhere, with all-day battery life plus global 5G LTE and next-gen Intel® Wi-Fi 6E capability[1]. Dolby® Audio and Dolby® Voice certifications keep connections crisp and clear, while the Low Blue Light display with Eyesafe® certification lets you put in those long workdays without worry. And with Intel® Unison™ you can seamlessly connect your ThinkPad to your smartphone for a universal, easy-to-use experience.[2]

ENHANCED USER EXPERIENCE

The new premium Deep Black or Storm Grey finish with tone-match keyboard gives this powerhouse a modern feel—and while you look cool, this device stays cool with the new rear fan exhaust and back venting design. An improved 84.2% screen-to-body ratio delivers a bigger, bolder picture. Plus, the updated communication bar, now with a split RGB and IR camera feature, means camera quality is better than ever thanks to dedicated lens and sensors.

SUSTAINABILITY FOCUSED

This Lenovo ThinkPad implements purposeful inclusions of recycled materials. This product uses high levels of post-consumer content (PCC) in the battery packs, speaker enclosures, and adaptors, as well as 90% recycled magnesium in the C cover (Deep Black), and 55% recycled aluminum in the A, C, and D cover (Storm Grey). Low-temperature soldering increases reliability while lowering carbon emissions during manufacturing, and FSC-certified plastic-free packaging adds to overall sustainability[3]. Plus, the low-power display and Human Presence Detection feature also help users conserve energy consumption.

performance

This Lenovo ThinkPad delivers powerful mobile productivity built on Intel vPro®, an Intel® Evo™ Design, with 13th Gen Intel® Core™ up to i7 processor, Intel® Iris Xᵉ graphics, up to 32GB LPDDR5 memory, and up to 2TB Performance PCIe Gen 4 SSD storage.

durability

MIL-SPEC tested against 12 methods, 26 procedures, and 200 additional quality checks, this Lenovo ThinkPad is designed for work-from-anywhere durability and engineered with reliable, long-lifecycle components.

security

Enhanced built-in Lenovo ThinkShield and Intel vPro® platform security, including Intel® Hardware Shield, provide hardware-assisted virtualization and encryption that help prevent attacks against the OS, login credentials, installed applications, and data to keep users—and businesses—secure.

Sustainability services

Lenovo offers a comprehensive portfolio of end-to-end services to support and protect your investment—and the environment.

CO$_2$ OFFSET SERVICE

Lenovo calculates carbon emissions of its PCs across their lifecycles. Leveraging that, customers can offset the carbon emissions associated with their Lenovo PC with every purchase.

BULK PACKAGING SERVICE

This solution packages multiple like-devices together to minimize the amount of material used—without compromising the integrity of protective packaging.

ENVIRONMENTAL LOGISTICS SERVICE

Calculates CO$_2$ emissions based on transport, recommending solutions and space-saving measures for the customer.

ENVIRONMENTAL SOFTWARE SOLUTIONS

Tracks energy consumption on a system basis throughout the lifecycle in order to determine which units are using more power—and when.

ASSET RECOVERY SERVICE (ARS)

Mitigates environmental and security risks through a customized single-source solution for secure, documented disposition at the product's end of life.

Accessories

ThinkPad 13-inch Sleeve

The ThinkPad 13" Sleeve is designed to fit the most recent generation of ThinkPad 13" notebooks. These fitted sleeves help to protect your notebook from dust, shocks, scrapes, and scratches for superior PC protection. The slim, lightweight design also stows easily in a larger bag.
