

Lenovo devices that are a class apart

ThinkPad X Series ultraportables combine enterprise security, manageability, docking and productivity features into a thin and lightweight design.

ThinkPad X13 Gen 4 (AMD)

Experience the ultimate blend of power and portability with this ThinkPad that empowers modern professionals to work efficiently and securely while on the move. Its ultra-portable design and extended battery life ensure that digital creators can work from anywhere without worrying about running out of power. Whether drafting emails, crunching numbers, or attending virtual meetings, up to AMD Ryzen 7 processors provide fast performance to keep up with a dynamic lifestyle. Its built-in webcam and noise-canceling microphones facilitate smooth virtual lessons and online workshops.

The robust security features, including an optional fingerprint reader, optional IR discrete camera and ultrasonic human presence detection, ensure that all the sensitive data remains protected. The ergonomic keyboard lets professionals type comfortably during long hours of report writing, data analysis, and client communication.

The 13"WUXGA screen with 100% sRGB makes photo editing and video production a breeze. With up to 32GB memory and up to 2TB SSD storage, the designers can work on creative projects without any lag.

The ThinkPad is certified with optional ENERGY STAR 8.0, optional EPEAT Gold registration, ErP Lot 6/26- making it one of the most energy-efficient devices on the market.
