

Lenovo ThinkPad L13 Yoga GEN 2

ThinkPad L13 Yoga Gen 2 combines the multimode versatility that Yoga is known for with improved productivity features and powerhouse performance.

This compact device is made for consuming content as well as creating it with up to 11th Generation Intel® Core™ i7 processors and up to Intel® Iris® Xe graphics. A newly added Thunderbolt™ 4 port gives users faster access to external drives plus more docking options that enable users to connect to up to two 4K displays or one 5K display for an even more immersive viewing experience.

From updated ThinkShield and biometric security features to productivity boosters, like Modern Standby and all-day battery life¹, ThinkPad L13 Yoga Gen 2 flexes to meet users' needs every moment of the day.

¹Based on testing with MobileMark 2018. Battery life varies significantly with settings, usage, and other factors.

Lenovo ThinkPad L13 Yoga GEN 2

INTERACTIVE DESIGN

ThinkPad L13 Yoga Gen 2 is designed to work in all the ways users do. Its 360-degree hinge transitions between laptop, tablet, tent, and stand modes, while its FHD IPS screen allows users to swipe, scroll, write, and draw with the touch of a finger. Besides helping users create and share content, ThinkPad L13 Yoga Gen 2 helps users more naturally capture it, too, thanks to an optional integrated pen.

IMPROVED PERFORMANCE

ThinkPad L13 Yoga Gen 2 is more than just versatile—it's also quite powerful. Packed with up to 11th Generation Intel® Core™ i7 processors, up to 16GB DDR4 memory, and up to 1TB PCIe SSD storage, this multimode device delivers increased performance and speed to keep up with demanding workloads.

PORTABLE AND PORT-RICH

Weighing just over three pounds, ThinkPad L13 Yoga Gen 2 combines productivity with portability in a device that is only limited by the user's ideas and imagination. It features a full array of ports that make it easy to connect to all kinds of devices across home offices to shared workspaces to collaboration rooms.

ENHANCED SECURITY

ThinkPad L13 Yoga Gen 2 is protected by an updated suite of built-in ThinkShield security solutions, including dTPM 2.0 chip, as well as enterprise-level biometrics, like Windows Hello™ facial recognition and a Match on Chip Fingerprint Reader.

Lenovo

performance

Faster DDR4 memory and the newest generation of Intel® Core™ processors enable ThinkPad L13 Yoga Gen 2 to power through heavy-duty demands.

productivity

ThinkPad L13 Yoga Gen 2 boosts productivity with Modern Standby, which enables the device to wake from sleep in less than one second and stay up-to-date even during sleep mode.

security

Enhanced ThinkShield solutions and biometric authentication features, such as touch fingerprint reader and IR camera, keep data and the device secure.
